## **DETAILED ACTION**

### ***Double Patenting***

1. Claims 1-7 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 7,142,096.

Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate an apparatus for unlocking a vehicle door, and as well an alarm on the motor vehicle, since use of triggering devices incorporated into apparatuses for unlocking doors and as well an alarm is well known and therefore would have reduced cost by incorporate multiple functions into a single device.

### **REMARKS:**

#### ***Response to Arguments***

2. Applicant's arguments, filed 1/16/2007, with respect to claims 1-7 have been fully considered and are persuasive. The rejection of claims 1-7 has been withdrawn.
